

AMENDMENT NO. 17 TO THE NASA RESEARCH ANNOUNCEMENT (NRA) ENTITLED
"RESEARCH OPPORTUNITIES IN SPACE AND EARTH SCIENCES (ROSES) 2011,"
NNH11ZDA001N, RELEASED FEBRUARY 12, 2011

This amendment provides the final text and proposal due date for Appendix A.36, [SERVIR Applied Sciences Team](#).

This solicitation seeks proposals for individual members of a new Applied Sciences Team to support the SERVIR program in developing science applications for international development through the use of Earth observations. SERVIR is a regional visualization and monitoring system using Earth observations to support environmental management, climate adaptation, and disaster response in developing countries. Team members will conduct applications research, development, and testing, and participate in capacity building and rapid response activities to enhance SERVIR efforts in developing countries. Team members will work on individual projects they proposed, as well as in *ad hoc* subteams for special problems. The overall objective of this team is to generate and broaden the base of applications of Earth observations serving key needs in SERVIR regions and supporting U.S. international development interests.

Proposals are due October 25, 2011.

Technical questions concerning this program may be addressed to Ashutosh Limaye Science and Applications Lead, SERVIR Coordination Office, NASA Marshall Space Flight Center; Telephone: (256) 961-7903; E-mail: Ashutosh.Limaye@nasa.gov

The NASA HQ point of contact concerning this program element is Woody Turner, Earth Science Division, Science Mission Directorate, NASA Headquarters, Washington, DC 20546-0001; Telephone: (202) 358-1662; E-mail: woody.turner@nasa.gov.
